**Meeting ID: 373 991 3487**

**Passcode: October**

Discussions will include:

Lake level

Culvert Project

## Lake level

The Lake level has been lowered to allow Lake Front property members to clean and repair or if permitted build docks. It is also a good time to reclaim any sand at the beaches that has washed into the water.

I have secured a 2 week timeframe with a Backhoe rental starting November 2nd. I will be asking for volunteers to help in this effort to clean the beaches.

The Board of Governors have agreed to leave the level the of the water as it stands now for a period of 4 weather friendly weekend. I the weather becomes Inclement during this 4 week period it will be extended.

The agenda at BOG meeting scheduled for the end of November will include a discussion as to whether or not to lower the lake to a point where the bottom is exposed to allow for the deep freeze of the weeds and their root system. The determining factor will be the winter weather prediction at the time and if this year is expected to allow for the deep freeze we need

At this point, the level is being maintained by Barry Hoberman, (thanks Barry) the Dam Committee Chairman. The managing of the level of the lake with the valve can be a bit tricky especially when there is a prediction of any precipitation.

## Impressive Improvements

The Beautification Committee has been busy getting the mailboxes ready for fall and finishing the planters at the beaches.

The planter have been painted and stenciled to identify each respective beach area. Special thanks go out to Aline Grandazzo for all her hard work hand painting and stenciling, to Heather Edelson and Eleanor Porriello for painting the bases and to Mary Beth Russo and to Sandy Kiehm for planting the flowers. A great job by all!

In case you haven't noticed, there are 2 new entry signs at West and South coves. These signs were a collective effort that between both the BOG members and the Beautification Committees members, both in design and cost. I would like to thank the Committee for raising money for these types of improvements which in turn allows for a lesser cost to the Association.

## Volunteers

Just another reminder. We are always looking for volunteers to help with a variety of projects.

We need to reclaim the sand at the beaches and clean the debris from the fallen trees.
